Master Yoda's Final Assessment: "Transformed, he has become. His goals, evolved they have - from seeking power to sharing wisdom, from overcoming fear to embracing love as strength. The greatest teacher, failure was - but the greatest

victory, choosing compassion proved to be. Ready to pass on what he has learned, he is. A new kind of Jedi, he has become."

Obi-Wan's Input: "Luke has far exceeded what I dared hope. His goal to overcome self-doubt transformed into unshakeable confidence in the Force. His struggle with attachment became his greatest strength. Most remarkably, he achieved what neither the old Jedi Order nor I could - he saved Anakin Skywalker through love, not duty."

Decision: Council recognizes Luke's complete transformation and goal achievement. His evolutionary goals led to paradigm shifts that will benefit future Jedi training. Recommend supporting his transition to teacher role and documenting his evolved approach for future study.
